

## Optag lydfil

Klik på optageknappen for at åbne vinduet Optag lydfil (Record sound file). Her kan du tilføje eller redigere skriptet og navnet på den anvendte stemme.

Når du er klar til at optage, skal du indtaste telefonnummeret og klikke på Ring til mig (Call me now). Puzzel ringer dig op og instruerer dig i, hvornår du skal begynde at tale, og hvordan du stopper, afspiller og gemmer optagelsen.

The screenshot shows the 'Sound File Library' interface. A modal dialog box titled 'Record soundfile: Closed.wav' is open. The dialog has a 'Script' field containing 'test 11' and a 'Voice' field also containing 'test 11'. Below these is a 'Save Script' button. To the right, the 'Record by Phone' section contains instructions: 'If you want to record a new sound file over the phone, please enter your phone number, including country code in the fields below, and press "Call me now".' Below this is a 'Phone Number' field with '0044' entered and a 'Call me now' button. A red arrow points to the 'Record by Phone' button in the dialog. The background shows a table of sound files with columns for Name and Description.

| Name                  | Description               |
|-----------------------|---------------------------|
| Closed.wav            | Closed message            |
| Main Menu.wav         | Hovedmeny                 |
| Queue Intro.wav       | Intro message for queue x |
| Queue Waiting.wav     |                           |
| Silence call info.wav |                           |
| Sleep Away.wav        | Music                     |
| test 4.wav            | test 4                    |
