

The provisioning Event Log in Organisation Settings

The Event Log within the Organisation Settings area allows you as administrator to track what user provisioning operations were performed, by whom, at what time and what their status is. To access the Event Log:

1. Navigate to Organisation Settings through the Puzzel ID top bar or just go to <https://app.puzzel.com/settings>. To be able access Organisation Settings your Puzzel ID user needs to have the **admin** role or higher.
2. Choose the “Event log” option:

3. The view can be filtered to find events from specific clients, actors etc. To view details click the “eye” icon as highlighted below:

The screenshot shows a table titled 'Provisioning Event log' with a 'Filters' button. The table has columns for TimeStamp, ClientId, Type, Event Log, Operation, State, and Actor. Three rows of data are visible, each with an eye icon in the Actor column. The first eye icon is highlighted with a red box.

TimeStamp	ClientId	Type	Event Log	Operation	State	Actor
6/3/2024 4:05:58 PM				Patch	Succeeded	
6/3/2024 4:03:26 PM	puzzel.org-settings			Patch	Succeeded	
6/3/2024 3:38:41 PM				Patch	Failed	

4. In the detailed view you can see information about the transaction, each step can be expanded to show additional request / response details.
