

Edit a list in Puzzel

Click on *List View/Edit* to see the records in the list and search for records.

The screenshot shows the 'Edit list: Email Subject' interface. At the top, there is a breadcrumb trail: Home > Services > Lists > Email Subject. The main title is 'Edit list: Email Subject'. Below this, there are two columns of form fields. The left column contains 'Name*' (with the value 'Email Subject'), 'List type' (with a dropdown menu set to 'General'), and 'Key type' (with a dropdown menu set to 'Characters'). The right column contains 'Description' (with the value 'Email Subject to queue') and 'Key type' (with a dropdown menu set to 'Characters'). To the right of these fields are three buttons: 'Import Wizard', 'Export list', and 'Test look-up in list'. Below the form fields is a section titled 'List View/Edit'. It shows 'Number of records: 24' and a search bar. Below this is a table with columns 'Key', 'Value', and 'Delete'. The table contains 10 rows of records. At the bottom of the table, there are navigation controls: '1 2 3 > >>' and 'Records per page 10'. Below the table are three buttons: '+ Add record', 'Save changes', and 'Undo changes'.

Here you can add new records, delete existing records and change content in existing records. You must click **Save changes** to store the changes done.

By default, we show 10 rows per page, but you can increase this value.
