

Options during chat

When in an ongoing chat, chatters have the following options besides being in a conversation:

- **Resize Text** – Enables the chatter to increase and decrease the conversation text
- **Disable Sound Notification** – Enables the chatter to deactivate and activate sound notification when receiving new messages
- **Minimize Chat Window** – Enables the chatter to minimize the chat window. Window is retrieved by clicking on the chat starter button again
- **End Chat** – Enables the chatter to end chat conversation. When ending chat user is offered a copy of the conversation, as long as this feature isn't disabled in the chat form
