

Configuring Scheduled Task to appear as sub tab

To configure which URLs should be open within a sub-tab you need to login to the Admin Portal and then navigate to **Widget → Widget Configuration** then expand the accordion called **Scheduled Task**. The property **"Open scheduled tasks with https:// URLs in the same tab"** needs to be set to On and the desired URLs need to be added to the "Filter scheduled tasks by URLs starting with... (comma-separated)". Multiple URLs can be added separated by (,) comma.

The screenshot shows the 'Widget Configuration' page in the Admin Portal. The 'Widget' tab is selected in the top navigation bar. Below the navigation bar, there are tabs for 'Widget Configuration', 'Tab Configuration', and 'Widget Administration'. The 'Widget Configuration' tab is active, and the 'Scheduled Task' accordion is expanded. The 'Scheduled Task' section contains a search bar for 'Quick find users/user groups' and a table with columns 'Company', 'Inherit', and 'Value'. The table has three rows: 'Allowed widget URLs to be opened in the same tab (comma-separated)' with a checked 'Inherit' box and an empty 'Value' field; 'Filter scheduled tasks by URLs starting with... (comma-separated)' with an unchecked 'Inherit' box and a text input field containing 'https://salesforce.com/en/'; and 'Open scheduled tasks with "https://" URLs in the same tab' with an unchecked 'Inherit' box and radio buttons for 'On' (selected) and 'Off'.

	Company	Inherit	Value
Allowed widget URLs to be opened in the same tab (comma-separated)		<input checked="" type="checkbox"/>	
Filter scheduled tasks by URLs starting with... (comma-separated)		<input type="checkbox"/>	https://salesforce.com/en/
Open scheduled tasks with "https://" URLs in the same tab		<input type="checkbox"/>	On <input checked="" type="radio"/> Off <input type="radio"/>
