

## Lijst exporteren

Als u de inhoud van de lijst naar een csv-bestand wilt exporteren, klikt u op Lijst exporteren en vervolgens op Lijst downloaden

The screenshot shows the 'Edit list: Email Subject' interface. The main form has fields for 'Name\*' (Email Subject), 'Description' (Email Subject to queue), 'List type' (General), and 'Key type' (Characters). On the right, there are buttons for 'Import Wizard', 'Export list', and 'Test look-up in list'. A red arrow points from the 'Export list' button to a modal dialog titled 'Export list'. The modal dialog has a 'Delimiter' dropdown set to ';' (semicolon) and a 'Download list' button. At the bottom left of the main form, there are links for 'List View/Edit', 'FTP File Import', and 'Import History', and a 'Save Changes' button.
