

Modules

A module is a clearly identifiable functionality of Puzzel products or services which can be bundled to create a solution that is perfect for our customers. We have classified the modules into six broad categories as listed below:

- [Channels](#)
- [Additional features](#)
- [Additional modules](#)
- [Integrations](#)
- [Numbers and connectivity](#)
- [Training and Consultancy](#)
- [Services, Training and Consultancy, Puzzel Support](#)
