

## Self-defined Days

In the Self defined days accordion, you can define dates and date ranges that have different opening hours than normal (and that is not listed under Holidays and pre-defined days).

▼ Self-defined days (Priority 1) ?

Days	From date	To date	From time	To time	Exit	Delete
<div style="background-color: #333; color: white; padding: 5px 10px; border-radius: 5px; display: inline-block;">+ Add day(s)</div>						

Click *Add day(s)* to add one day or a range of days. You can:

1. Add a time interval for one day, by setting the same *From date* and *To date*, and the desired *From time* and *To time*. To choose the whole day, select *From time* 00:00 and *To time* 23:59.
2. Add a date range that should use the same exit for the whole date interval. Select *From date* and *To date* and set *From time* to 00:00 and *To time* to 23:59.
3. Add a date range that should use the same exit for a specific time interval for each of the days in the date interval. Select the desired date range (e.g. 01.07.2016 - 31.07.2016) and the desired time range (e.g. 16:00-17:59). Please note that the defined exit in this case will be used only 16:00-17:59 for each of the days in the date interval.
4. Add a date range without a year if this range should be used all years from now. Enter the desired *From date* and *To date* on format dd-mm (e.g. *From* 01-07, *To* 31-07).

Click *Add* to add the new entry to the list, and then click *Save*. See example below:

▶ Common opening hours (Priority 3)						
▶ Holidays and pre-defined days (Priority 2)						
▼ Self-defined days (Priority 1) ?						
Days	From date	To date	From time	To time	Exit	Delete
Example 1 (14. December 2015)	<input type="text" value="14-12-2015"/>	<input type="text" value="14-12-2015"/>	<input type="text" value="00:00"/>	<input type="text" value="23:59"/>	Lukket ▼	
Example 2 (1. February 2016 - 5. February 2016)	<input type="text" value="01-02-2016"/>	<input type="text" value="05-02-2016"/>	<input type="text" value="00:00"/>	<input type="text" value="23:59"/>	Lukket ▼	
Example 3 (1. July 2016 - 31. July 2016)	<input type="text" value="01-07-2016"/>	<input type="text" value="31-07-2016"/>	<input type="text" value="16:00"/>	<input type="text" value="17:59"/>	Lukket ▼	
Example 4 (1. August - 2. August)	<input type="text" value="01-08"/>	<input type="text" value="02-08"/>	<input type="text" value="00:00"/>	<input type="text" value="23:59"/>	Lukket ▼
