

Edit a list in Puzzel

Click on *List View/Edit* to see the records in the list and search for records.

The screenshot shows the 'Edit list: Email Subject' interface. At the top, there is a breadcrumb trail: Home > Services > Lists > Email Subject. The main title is 'Edit list: Email Subject'. Below this, there is a form with two columns. The left column has 'Name*' (Email Subject), 'List type' (General), and 'Key type' (Characters). The right column has 'Description' (Email Subject to queue) and 'Key type' (Characters). To the right of the form are three buttons: 'Import Wizard', 'Export list', and 'Test look-up in list'. Below the form is a section titled 'List View/Edit' with a search bar and a 'Search' button. The main area is a table with 24 records. The table has three columns: 'Key', 'Value', and 'Delete'. The records are as follows:

Key	Value	Delete
amount.	q_mail_invoice	
bill.	q_mail_invoice	
error.	q_mail_support	
fault.	q_mail_support	
help.	q_mail_support	
invoice.	q_mail_invoice	
support.	q_mail_support	
technical.	q_mail_support	
111	a	
123	c	

At the bottom of the table, there is a pagination control showing '1 2 3 > >>' and a 'Records per page' dropdown set to '10'. Below the table are three buttons: '+ Add record', 'Save changes', and 'Undo changes'.

Here you can add new records, delete existing records and change content in existing records. You must click **Save changes** to store the changes done.

By default, we show 10 rows per page, but you can increase this value.
