

FTP File import

If you want to generate a new list to a file e.g. each night or week and put it on Puzzels FTP server, so that Puzzel can import it, we can configure that this is done. You need an FTP user account for Puzzels FTP server, and FTP File import must be enabled, and the correct filename must be entered under FTP File Import.

▶ List View/Edit ?

▼ FTP File Import ?

Enable	File name	Delimiter:
<input checked="" type="checkbox"/>	<input type="text" value="mytestlist"/>	<input type="text" value="; (semicolon) ▼"/>

▶ Import History ?
