

user_groups

View name: user_groups

Contains/Role: Currently this is implemented as a view. Might be changed to table later.

| Column Name | Datatype | Description |
|----------------|---------------|--|
| usergroup_id | int | Unique id for the usergroup. |
| usergroup_name | nvarchar(250) | The name of the usergroup. Over time a usergroup name might change. If so, the most recent name is returned. |
