

Signing in and Menu

Signing in

To use Puzzels mobile app, you must have an existing Puzzel-account with belonging to sign-in credentials. Use the same credentials in the app as you do in the agent application or Administration Portal.

The image shows the Puzzel login interface. At the top is the 'puzzel.' logo. Below it is a light gray box containing three input fields labeled 'CUSTOMER', 'USERNAME', and 'PASSWORD'. Each field has a small red square icon on the left. Below the fields is a red 'Sign In' button.

The image shows the Puzzel two-factor authentication screen. At the top is the 'puzzel.' logo. Below it is a light gray box with the heading 'Two-factor authentication is required!'. The text 'We have sent a code by SMS to' is followed by a red box containing the phone number '004746152893'. Below this is a white input field for the code. A blue link 'Send new code' is below the input field. At the bottom is a red 'Sign in' button and a 'Cancel' link.

If your company has activated two-step-authentication for signing in, you will be prompted to enter the security code sent to you via sms or e-mail. After signing in you will first see a short start-up video with the Puzzel logo, followed by the main menu (for Android devices) or queue overview (for iOS devices).

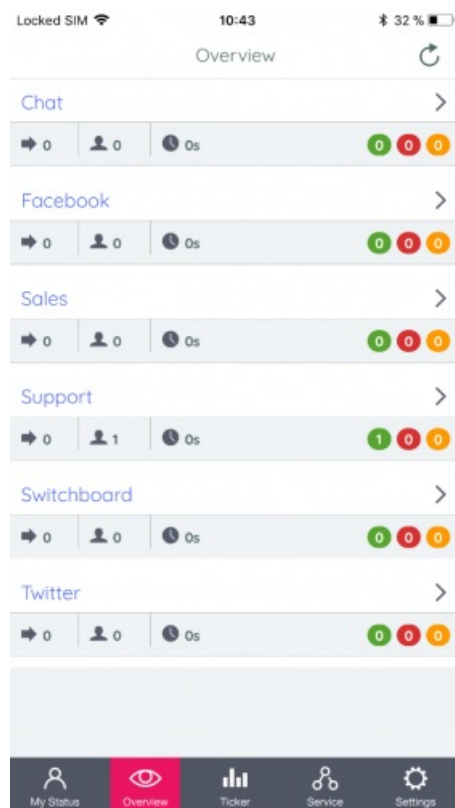

Note

The mobile app does not support solutions set up with Single Sign In (SSO)

Menu

The menu (and start page) is slightly different for iOS devices and Android devices. The iOS version has the queue overview as home page with a menu bar at the bottom, while the Android version has a separate menu page, which also is the apps

iOS device:

Android device:
