Campaigns

Puzzel supports the option of impactful and effective email and SMS campaigning which is considered crucial for the growth for any business. This helps to effectively engage with your customers and get the results you need.

While SMS campaigns can be used for short and personalised messages, emails can be used for lengthy messages or bulky attachments of unlimited size. But it is no surprise that both SMS and Email campaigns can make a powerful combination for connecting with your customers.

For more details on the Campaigns functionality, read the articlehere.
