

Diagramalternativ

En del diagram har diagramalternativ. Dessa hittas under Chart options. Här kan du välja:

- .visa/visa inte tabell och/eller diagram
- .vilken kolumn som ska visas i diagrammet
- .vilken typ av diagram du vill använda (cirkel-, stapel- eller linjediagram)
- .om alla (standard) eller bara de översta 5/10/15/20 raderna ska visas

The screenshot shows a dialog box titled "Details pr queue" with a close button in the top right corner. The dialog is organized into sections: "Column", "Row Filter - Queue", "Chart Options", and "Default Parameters".

Under "Chart Options", there are two radio buttons: "Show Table" (checked) and "Show Chart" (unchecked). Below this, there are three rows of settings:

- Chart type: A dropdown menu set to "Pie" and a checkbox for "Show values" (unchecked).
- Show Column: A dropdown menu set to "Incoming calls".
- Rows to show: A dropdown menu set to "All".

At the bottom of the dialog, there are two buttons: "Apply" (in a red box) and "Save As..." (in a dark grey box).

Om du vill begränsa vilka rader som ska inkluderas i diagrammet (utöver de översta x raderna), kan du använda radfiltret och manuellt välja rader som ska inkluderas.
