Puzzel Dialler

Part of the Puzzel Contact Centre Solution

Efficient and productive outbound campaigns

Puzzel Dialler is a powerful tool that makes more efficient use of agents' time in contact centres and sales organisations. When active, Dialler will go through a given list of contacts and call them automatically, connecting calls to the best available agents to maximise reach and productivity.

Cost-effective campaigns

Connect with far more people in a single day than a travelling sales team ever could.

Call blending

Boost efficiency by blending inbound and outbound calls. Outbound calls from the Dialler list can be given a lower priority that normal inbound calls.

General Settings (2)				
Time Intervals:	Period 1 00:00 - 23:59	Period 2	Period 3	Period 4
Limit to Dates:	From 01-10-2020	To 31-07-2021	 Exclude Saturdays Exclude Sundays 	Enable rescheduled calls "to mysell" when campaign is disabled
Max, number of calls per contact 3	Min, minutes between retries	Max. number of contacts in queue 20	Dialler mode Progressive (Call contact first) v Preview (Call agent first)	
Parameters for Progressive (Call contact first) Max. ringing time 28		Abandon if no agent allocated within sec 3.0	Productive (Call contact first) Predictive (Call contact first) Power (Call contact first) Power (Call contact first) uncontact first of the sec allocated agent within sec 3.0	
Stiert call callback	Screenpop to agent for silent call callbacks			

Highly configurable

Choose the right approach for your campaign with our four different dialler modes: preview, progressive, power and predictive.

Why contact centres choose Puzzel Dialler

All-in-one platform

Our single, integrated platform helps agents deliver seamless, fast service

Greater control

Increase your connect rate by defining certain times in the day when outbound calls should take place

Agent productivity

Agents may switch between handling outbound Dialler calls only, or a blended mode where they handle both inbound and outbound calls

In supporting digital campaigns, the phone is still an important tool for reaching new potential customers with your message. All businesses also depend on keeping existing customers engaged and happy, and dialler-driven campaigns can enable you to secure customer retention in an efficient manner.
